Beaded Barrel Beads
A self supporting beaded bead
designed by Marisa Cappetta.

Gallery Vittoria Newsletter April 2005

Exquisite bracelets drifted in and out of my studio this month. Seeing the delight of students as they created beautiful, wearable works of art to take home is a one of the great rewards of teaching this art form.

The program for the forthcoming weeks will give students an opportunity to share in the excitement of beginning bead weaving or to build on skills already learned.

Clasps and Other Finishing Techniques

In the May edition of the Gallery Vittoria Newsletter details will be published for the cold wire working and finishing technique weekend workshop for the end of May.

Finishing and findings are the mark of a well made piece of jewellery. This workshop will give students an opportunity to use techniques already acquired and learn new ones in order to put the finishing touches to their pieces.

Happy beading everyone,
Marisa
