about the classes

Findings and Finishings covers the basics of simple clasps, ear wires and wire wrapping using cold metal working techniques.

Beaded Cabs - learn to bead a bezel around flat backed stones, cameos and other flat backed new or vintage inclusions in jewellery.

Plan and start your own project in the Master Class. Learn to follow a pattern. Bring patterns, magazines or books, beads (or use mine) and think about combining techniques. It's an open session workshop.

beading tips
Thread beads in various colour combinations on to small safety pins to try out colour schemes. The pins can then be linked together with a larger pin. This is easy to carry and refer to during bead shopping.

buying beads online

My two favourite online sources for beads:
www.whimbeads.com

Seed beads, plated metal beads and findings, glue, needles, thread, pressed glass and more. Purchase directly from their site.

<http://stores.ebay.com/Halsey-Trading-Company>

My favourite eBay merchant. This is a store, no bidding required. Czech pressed glass and crystals, cat's eye bead, sometimes pearls.

To buy from eBay you will need to establish a Paypal account. This is a free for users, electronic funds transfer system. The main concern for people new to online trading is security. There are fraudsters in cyber space who have the added advantage of anonymity. A common scam is to send emails purporting to be from eBay stating that your account is suspended and you must go to a site and put in your password. DO NOT do it.

I am not affiliated with any of these companies/merchants and can not accept responsibility for their trading practices.

Variations on:

Daisy Chain

Try using different types of beads as center beads. If you use larger or smaller center beads, adjust the number or size of seed beads. Adding more rows of lace along the edge creates a wider cuff style.

ruffled peyote bracelet
Widen the flat row to fit more accent beads creating a lush, bead 'garden' for the wrist.
